

Campus Safety Precautions-Route for off-campus patrol

There will be police troops from Tai-Chang Police station patrolling traffic accidents hot spots, which are: Jici Road, Mingyi Fifth Street and Xuan Wu Temple. There will be police patrol boxes set up each time for patrol services.

Campus Safety Precautions- In-campus Safety Corridor

The nighttime safety corridor area includes: the corridor from the administrative teaching area to the security guard house, along the roadside and the entrance of the dormitory area. The lights have a sensor light system and also will be switched on daily to ensure the safety of the students.

Campus Safety Precautions

109.11.25 Ministry of Foreign Affairs and The Police Department attended our safety advocate for foreign student in our school.

Campus safety related practices- Dangerous Intersections around Campus

The school drew out the road map and bring it to attention regarding dangerous road sections during the Freshmen Campaign as well as during assemblies from time to time.

Campus safety related practices

Actively fight for buses to enter the campus

We actively promoted the "bus into campus" in the year 2016, and started driving 305, 306, 307 and other third-line bus stops in the year 2020.

Safety maintenance work for renters

For the safety and protection of renters

Within **one month** after the beginning of each semester, the renters are required to **complete the system** and record the renting address and the basic information of the landlord. **The tutor and counseling** instructor will **go to the residence** to carry out the **renting safety visit**. The focus of the visit is "Is to check the **fire extinguisher** ,**Access control** and setting locks, the **water heater** installation meet safety requirements, **fire alarm** or independent **smoke detector**, Is the student **familiar with the escape** methods and passages", "whether the **escape passage is unblocked** and whether the markings are clear" and so on.
